

# GRAZIELLA CITY TOUR

## DESCRIPTION

The route covers both the inner part of the ancient city of Aosta (Augusta Praetoria) and the suburbs. The participants will discover the medieval part of the city and the quarters which were built during the 19th century.

The itinerary skirts two canals dating back to the Roman epoch, the ancient walls of the city and its towers, but also some productive areas. The major archaeological sites of the city can be also discovered thanks to the cooperation with some local tourist guides (on demand).

The tour also includes some tasting experiences of AP, PDO and IGP products in a medieval cellar in the centre of the town. The 'Graziella' bikes and the helmets will be given by the organisers.

### REQUIRED ABILITIES

Autonomous management of the bike

## KIND OF OFFER

Exclusive guided tour by Graziella bike (vintage bikes of the 1960s, 1970s and 1980s)

## WHERE

City of Aosta
