

PEDALING AMONG THE VINES

DESCRIPTION

Tour of the vineyards that surround Cave des Onze Communes by e-bike. At the end of the tour it is possible to visit the selling point and taste the wines that are produced by the cooperative.

The wines by **Cave des Onze Communes** are realised thanks to the constant and painstaking work by the members of the cooperative, who cultivate the vineyards of Aosta and of the ten surrounding municipalities with devotion and professionalism.

Thus, it is possible to discover the territories in which DOC Valdôtain wines are produced, enjoy the landscape and support a **responsible tourism project** realised in cooperation with Fondazione Grand Paradis whose aim is to protect the magnificent but fragile environment in which we all live.

REQUIRED ABILITIES

No special abilities are required, only the fact of being able to ride a bike. The participant will receive some useful information about e-bike before starting the experience.

KIND OF OFFER

5 routes that have different difficulty level, and length.

HOW TO GET THERE

Departure and arrival from the same spot, the parking in front of Cave des Onze Communes, which can be reached by bus (Aosta-Aymavilles or Aosta-Cogne tracts), or by car.

WHERE

Aymavilles

WHEN

From April-May to September-October.
Activity linked to the weather conditions.
