

TOUCH THE SKY WITH A FINGER: SKYWAY MONTE BIANCO

DESCRIPTION

Skyway Monte Bianco is not just a cable car, it is a vertical, alpine, sustainable, wine-gastronomic and **cultural experience** that aims to bring man closer to the mountains and the sky on the **highest point in Italy**.

During the 2,000-metre journey **cabins rotate slowly**, offering a 360 degree view of the eternal glaciers and imposing peaks, towards the **panoramic terrace**, a natural observatory where you can admire more than forty peaks that exceed 4000 metres, from Mont Blanc to the Matterhorn, the eternal snow even during the summer period and the teams of mountaineers who set out to conquer the first mountains climbed by man.

Visitors can experience not only the terrace, but also several **cultural activities and educational attractions** that include interactive exhibits about the mountains, the surrounding nature and the history of the cable car. They can also enjoy the immersive experience of the brand new **Infinity Room**, a surreal room that allows you to feel the thrill of entering a glacial cave or flying over the summit of Mont Blanc.

Here, everything can enchant.
